Product description

FLAT PORTHOLE FOR DOORS phi 323 mm. BLACK (RAL 9005).

FLAT PORTHOLE FOR DOORS, which is in our offer, is a wonderful porthole with a diameter of 323 mm to be fitted to the inner door. It fits perfectly into standard door sizes with a thickness of 40 mm (other door thickness are possible according to individual arrangements). The rings are made of stainless steel, while the glass is matte or transparent. The rings are painted black.

The offered set includes:
- Ring from stainless steel (powder coated to RAL 9005 - black) with holes - 2 pieces,
- Glass matte or transparent - 2 piece,
- A set of nuts and bolts.

Nuts:
A coupling nut.

The porthole's installation:

1. Cut a hole in the door according to the table ("Dimensions portholes").
2. Attach one part of the porthole to door and mark places to drill holes for the screws.
3. Drill the drill holes for the screws.
4. Screw the porthole together with a set of bolts and nuts.
5. .... and it's ready!

The installation of a porthole is very easy! Go for it!
