Product description

PORTHOLE FOR DOORS, which is in our offer, is a wonderful porthole with a diameter of 350 mm to be fitted to the inner door. It fits perfectly into standard door sizes with a thickness of 40 mm (other door thickness are possible according to individual arrangements). The rings are made of polished stainless steel, while the safety glass is matte.

The offered set includes:

- Ring pressed from stainless steel with holes - 2 pieces,
- Safety glass matte - 1 piece,
- A set of nuts and bolts.

Nuts:

A flange nut

The embossed porthole's installation

1. Cut a hole in the door according to the table ("Dimensions portholes").
2. Attach one part of the porthole to door and mark places to drill holes for the screws.
3. Drill the drill holes for the screws.
4. Screw the porthole together with a set of bolts and nuts.
5. and it's ready!

The installation of a porthole is very easy! Go for it!
